Customs Classification of Goods entails classifying products into correct tariff codes to determine the amount of duty payable. Failure to classify products correctly will not only involve substantial costs to the business but will also attract customs investigations. This Malaysian Customs

Classification of Goods Seminar will provide an insight into how goods in Malaysia are classified and participants will be able to:-

- define terms used in the Customs Nomenclature
- state reasons for tariff classification
- outline the structure of Harmonized System (HS)
- Identify the concept of classification

### HOW WILL YOU BENEFIT :

- ✓ Participants will understand the nature concepts and regulations in respect of classification.
- ✓ The difference between HS Code and AHTN code.
- ✓ Understand the rules of classification and gain an insight into how goods are classified and provide an avenue for participants to clarify doubts.
- ✓ To enlighten participants as to the procedures in obtaining advanced ruling on classification in order to avoid disputes

### WHO SHOULD ATTEND?

This course is suitable for all Manufacturers, Importers, Exporters, Trading Houses, Forwarding Agents, Shipping Agents, Tax Professionals and those working in the Logistic and Shipping Departments.
