To support the growth of the digital economy, the Malaysian Government intends to implement **e-Invoicing** in stages in an effort to enhance the efficiency and betterment of the country's tax administration management. The implementation of **e-Invoicing** is to improve the quality of services and reduce compliance costs to taxpayers, while increasing the efficiency of business operations, as was announced by the Ministry of Finance.

Although the first stage of implementation begins in Aug 2024 and is mandatory for business with a sales threshold of RM100m per year, the IRB welcomes organisations who are ready to undertake the programme to volunteer themselves for the pilot project.
