

# Sustainability & ESG in Semiconductor Manufacturing: Strategies for a Greener Future

(HRD Corp Programme Number : 10001533289)

## COURSE MODULES

- Introduction to ESG in Semiconductor Manufacturing
- Environmental Sustainability in Semiconductor Manufacturing
- Governance & Regulatory Compliance
- Social Responsibility & Employee Engagement
- Building a Sustainable Supply Chain
- ESG & Digital Transformation in the Semiconductor Industry
- Climate Action & Carbon Neutrality in Semiconductor Firms
- Developing an ESG Roadmap for Semiconductor Companies

This 2-day program is designed to provide semiconductor industry professionals with a structured approach to integrating ESG principles into their business. By combining expert-led sessions with hands-on exercises, the program ensures participants leave with

actionable insights to enhance their company's sustainability practices.

## COURSE OBJECTIVES

This 2-day ESG training program aims to equip semiconductor industry professionals with the knowledge and tools to integrate Environmental, Social, and Governance (ESG) principles into their operations. The program will provide industry-specific insights, regulatory updates, and practical exercises to help participants develop sustainable business strategies.
